## Message to Students:

*Please add anything else you would like students to know or prepare for prior to starting a placement at your site.*

Working in a Cree community requires students to adapt to living in an isolated, remote location, and in a culture that to many may be unfamiliar. Students are encouraged to reflect on and do some research into the effects of colonialism, residential school experience, and cultural safety principles before starting to work with the Cree Health Board.

Two good places to start are to take a look at the recommendations of the Truth and Reconciliation Commission, and to read Naomi Adelson's book, "Being Alive Well."

- Pre-placement information package sent to student (e.g. reading list or material, schedule):  yes  no

(Name and title)

My organization wishes to offer placements to occupational therapy students from:

- my affiliated University       Canadian universities       International O.T. programs

For fieldwork education purposes, I hereby authorize my affiliated university occupational therapy program to forward the information included in the FS-PRO to students and fieldwork coordinators from other occupational therapy programs.

I shall ensure that students will be supervised by qualified occupational therapists who have a minimum of one year of professional experience, and hold credentials with their provincial regulatory body.
